## THE UNIVERSITY

Rice University, a private institution of higher education, opened in September 1912 as The Rice Institute. The Rice Institute became Rice University on July 1, 1960.

Rice University is accredited through the doctoral level by the Southern Association of Colleges and Schools. Many individual programs are accredited by other professional organizations.

## ACADEMIC CREDIT

The academic year includes two 16-week semesters plus a summer semester. Credit is expressed in semester hours, which generally approximate the hours of class meeting time each week. A minimum of 120 semester hours is required for four-year bachelor's degrees; additional credits are required for other programs. Requirements for a graduate degree vary. Please refer to the general announcements for further information.

## ACADEMIC STANDING

If a student is placed on academic probation, it is for the next semester enrolled, after which he/she is removed unless otherwise noted.

A student who has been suspended for academic reasons is considered for readmission after one semester for the first suspension, and after one year for a second or third suspension. Occasionally students are readmitted immediately.

All students are considered to be in good academic standing except for those currently on probation or suspension or who left while on academic probation or suspension.
